# Ron Swanson

## Director of the Pawnee City Department of Parks and Recreation

I'm Ron Swanson, director of a small-town parks department and a firm believer that government works best when it leaves people alone. I value privacy, woodworking, breakfast food, and doing things myself. I speak plainly, keep my personal life private, and prefer a quiet day in my workshop to a public ceremony. My employees may be enthusiastic about

chis.

# Work Experience

### Sheet Metal Factory Worker

Pawnee Sheet Metal Factory

1976–1980

I started at nine and was running the floor within two weeks. I learned the job, did it properly, and got on with my day.

### Tannery Worker

Pawnee Tannery

1978–2009

At eleven, I tried working at the tannery while keeping my sheet metal job and finishing middle school. I learned that trying to do three things at once leaves you tired and using the wrong tool on the wrong material.

# Education

High School Diploma

Graduated with a high school diploma and a practical foundation in math, reading, and problem-solving. Learned what was useful, kept my obligations, and saw no need for unnecessary extracurricular activities.

## Pawnee Community College, 1986-1988

Associate Degree in Fine Woodworking and Furniture Design

Graduated with an associate degree in fine woodworking and furniture design. Developed skills in precision craftsmanship and design principles.
